Time	Session
6.45am	Fun run - meet at the main entrance to the Museum (Rolleston Avenue)
	Plenary 3
8.00am	A story from Iceland: Nationwide hyper-acute and acute stroke services <i>Marianne Klinke</i>
8.20am	Innovative stroke prevention solutions to address inequity: Lessons from Africa <i>Bruce Ovbiagele</i>
8.40am	After reperfusion - medical and secondary prevention from ASU to home <i>Rohan Grimley</i>
8.55am	The deteriorating ASU patient: Assessment and management <i>Julia Slark</i>
9.10am	Connecting hyperacute to rehab and home – allied health in the acute stroke unit <i>Natasha Lannin</i>
9.25am	Optimising rehabilitation <i>Cathy Stinear</i>
9.40am	Healtheconomic aspects of stroke <i>Dominique Cadilhac</i>

9.55am Optimising stroke care: a Māori consumer perspective
Te Aniwa Reedy

10.10am New investigator
An international consensus study on post-stroke physical activity measurement
Natalie Fini

10.20am New investigator
Predictors of time to treatment following aneurysmal subarachnoid haemorrhage across two tertiary referral centres in Australia: an embedded mixed-methods study
Thuy Nguyen

10.30am **Paramanawa | Morning tea**

Auditorium

Conway 1+2

Conway 4

**Free papers
4A:
Rehabilitation
and recovery II**

**Free papers 4B:
Acute stroke
care**

**Free papers 4C:
Prevention and
epidemiology**

11.00am Predicting discharge destination in acute stroke patients using machine learning

Metaraminol improving CT cerebral perfusion in severe Intracranial Atherosclerotic

Area-level and individual-level socio-economic differences in health-related quality of life trajectories: Results from a 10

	<i>Tina Ahluwalia</i>	Disease <i>Rudy Goh</i>	year longitudinal study <i>Yichao Alexandra Sun</i>
11.10am	Talking with patients about life after stroke: What happens in stroke services? <i>Felicity Bright</i>	Recurrent ischaemic stroke due to thrombus formation on a carotid web <i>Susannah Gattas</i>	Methodology of the 5th Auckland Regional Community Stroke (ARCOS V) study: Mapping the prehospital pathway of stroke/TIA 2020-2021 <i>Bronwyn Tunnag</i>
11.20am	Understanding unmet needs after young stroke: A codesign project to develop a screening tool <i>Karen Borschmann</i>	Shear-activated nanotherapeutics to selectively enhance collateral cerebral blood flow during ischaemic stroke <i>Magdalena Litman</i>	Fighting a leading cause of stroke: High blood pressure <i>Jo Lambert</i>
11.30am	Discussing sex and intimacy post stroke: Do patient	Malignant Stroke – the intersection between neurology and	If we are what we eat, then we have some work to do Diet quality of Australian stroke

	preferences and clinician perspectives match up? <i>Sian Mcgee</i>	neurosurgery – A single center retrospective mortality study <i>Nicola Guy</i>	survivors <i>Karly Zacharia</i>
11.40am	Meeting information needs: Stroke Foundation Young Stroke Project <i>Sharon McGowan</i>	Cerebral venous thrombosis in adults: a CCDHB audit <i>Avanti Singhal</i>	A rational clinical approach to the diagnosis of transient ischaemic attack and associated mimics: A retrospective cohort study <i>Rudy Goh</i>
11.50am	"What am I, what am I doing?" A qualitative study about changing occupational identity and return-to-work experiences after stroke <i>Julianne Johns</i>	Stroke on DOAC – A proof of concept study using the point of care DOASENSE dipstick to guide thrombolysis decision making in patients prescribed a direct oral anticoagulant <i>Shuangyue Tan</i>	Evaluating the management of people with stroke/TIA in Australian general practice: linked registry and general practice data <i>Monique Kilkenny</i>
12.00pm	Co-Designing aphasia	Implementation of fever, sugar	FAST-IT: Finding a Simple Test In TI

Equity of access in stroke rehabilitation
Stephanie Thompson

Device and programme requirements for effective upper-limb robotic rehabilitation following stroke: A systematic review and meta-analysis
Kate Charlesworth

2.06pm

Cultural aspects of stroke care
Anna Ranta

Establishing reporting standards for participant characteristics in post-stroke aphasia research: An international Delphi exercise and consensus

meeting
Sarah Wallace

2.18pm

Secondary prevention delivered by Telehealth
Coralie English

Inclusion of people with aphasia in stroke trials: a systematic search and review
Ciara Shiggins

2.30pm

Practical solutions to achieving equitable basic stroke unit care
Skye Coote

Development of a behaviour change intervention to support constraint-induced movement therapy (CIMT) delivery via telehealth
Lauren Christie

2.42pm

Panel

Clinical practice recommendation determined by a Delphi Expert Panel for management of lateropulsion after stroke
Jessica Nolan

The recovery of
bimanual co-
ordination after
stroke

Harry Jordan

What does the
AFFINITY trial of
fluoxetine tell us
about depression
in the first year
after stroke?

Maree Hackett

3.00pm **Paramanawa | Afternoon tea**

3.30pm **SSA AGM** in Conway 1+2

6.30pm Gala dinner at Te Pae Christchurch Convention Centre

11.00pm Close

**Wednesday, 31 August – Friday, 2 September
2022**
